

# TS-3000i Software Requirements

155 [David Lopez](#) Mon, Jan 10, 2011 [Document](#) 0 3447

The TS-3000i requires a Web browser and Ethernet connection for setup and time synchronization of the TS-3000i Web clock.

The Web browser supported is Internet Explorer 6 or 7, Safari 3, Firefox 2 (not compatible with Bonjour).

See TS-3000i Installation and Operation Manual for complete operational and Utility details.
