

How to import missing punches using punch file for terminals: HP & MTX

234 [Frank Mateo](#) Fri, Jul 22, 2011 [HandPunch](#), [MTX-15 Terminal](#), [Time Guardian Version 4.0 or Lower](#) 0 11332

How to import missing punches using punch file for terminals: HP & MTX on Time Guardian v4.x or lower

1. Download <ftp://ftp.amano.com/Time%20Guardian/DuplicateID2011.exe> and save to your Time Guardian folder
2. Run the utility
3. Select all tables
4. Select the start date and the end date of the missing punches
5. Choose the type of terminal
6. Press Retrieve

Can be utilized with missing punches that are found on the below file names:

- HP - punch.log
- MTX - punchdmp.dat
