

GPF while Calculating Time card in Trutime

471 [David Lopez](#) Wed, Mar 21, 2012 [TruTime](#) 0 6918

This error happens sometimes when a customer is using Advanced Zones and they are not fully configured.

Advanced Zones require 3 days of schedule coverage. You have to configure a day worth of punching prior, the day of, and the day after. The Example below is a properly configured Advanced Zone.

Example:
