How to activate purchased modules in Time Guardian Series (TG 5.x, TGPlus 2.x, TGPro 4.x)?

Answer:

You can Activate Purchases Modules to Time Guardian using ASA License Mangager

1. Click on **START** button on the toolbar.
2. Select “**All Programs**”
3. Select the package name (TimeGuardian, TimeGuardianPLUS or TimeGuardianPRO)
4. Select **ASA Licensing Manager**
5. Click “**Update Features**”

Note: The dialogue box will ask you to restart your Time Guardian Package. Please do not activate in workstations with the client installs.
