AMANO.

Introduction

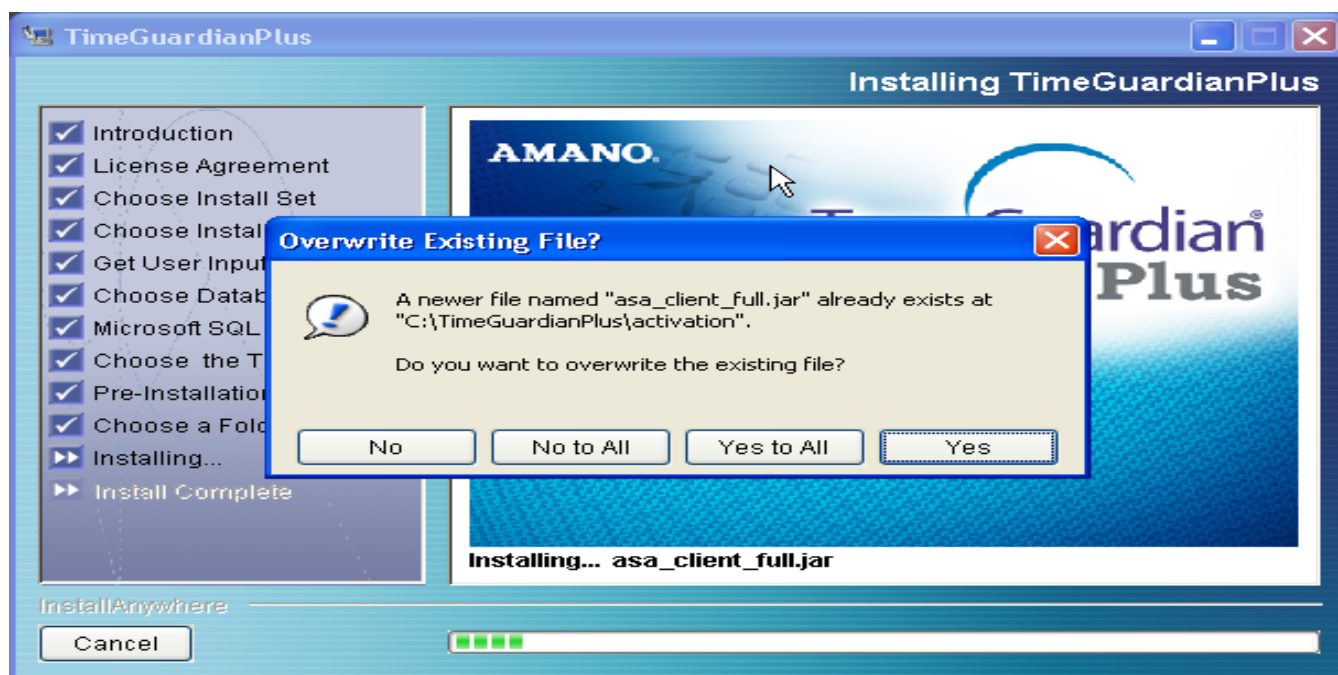

Is my Time Guardian/ Time Guardian Plus/ Time Guardian Pro showing the wrong version?

Answer:

You may see the wrong version (for example, Time Guardian 5.1.0.5.1.0, Time Guardian Plus 2.1.0.2.1.0, or Time Guardian Pro 4.1.0.4.1.0) in the **About window**, if you have installed Time Guardian, Time Guardian Plus, or Time Guardian Pro software as a client and server on the same machine.

Note: See the following steps to avoid this error.

1. Assuming that you have already installed the Time Guardian/Time Guardian Plus/ Time Guardian Pro as a Server on your machine.
2. During Client installation select **Yes to All** option on the **same machine** (see the following image)

Conclusion

Thank you for your time, and have a great day. As always, feel free to submit ideas on topics you want addressed in the Amano Knowledge Base using the comments feature.
