closed dataset

the tg version that presents this error is discontinued please upgrade to tg5 or higher

temporary solutions:

1. Please restart your pc and start time guardian but select NO for backup.
2. Go to file > backup > setup
3. Change the folder location to a valid location
4. Backup number should be set to 5 or higher
5. Save settings
6. To test, go to file > backup > run

OR

you can try deleting the backup.ff2 file, login to tg, cancel backup, then file > backup > setup to correct the issue
