AMANO.

Introduction

How do I fix, "**Canvas Does not Allow Drawing**"

Reply:

1. Change default printer to XPS, open tg, try report, close tg, revert back to actual default printer, open tg, run report
2. If persists, check if vista and installed on program files - need to be reinstalled outside of pf / reboot / has java been updated or installed?

Conclusion

Thank you for your time, and have a great day. As always, feel free to submit ideas on topics you want addressed in the Amano Knowledge Base using the comments feature.
