

3 digit department/labor number max limit and single labor level limit for FPT80

540 [Frank Mateo](#) Wed, May 7, 2014 [FPT-40/80 Fingerprint Terminal, Time Guardian Series \(TG 5.x, TG Plus 2.x, TG Pro 4.x\)](#) 0 5144

FPT80 is capable of labor/dept transfer but has limits.

- 3 digit department/labor number max limit
- single labor level limit

Any dept/labor # that is more than 3 digits will be ignored when polled, it may show on the clock but will be discarded in the timecard.

TG can have 6 levels of labor when ADV LABOR module is purchased or if you have TGPRO but the clock can only handle 1 level = departments or the very first/top level.

MTX15 and Handpunch with F1/F2 keys can handle multilevel labor transfers. MTX15 has 4 digit limit on dept/labor #.
