Dear Valued Reseller,

This email is to inform you effective immediately the EX-9000 series will be discontinued. The discontinuation of the EX-9000 series is due to component obsolescence without replacement.

Amano will continue to service and repair the EX-9000 series as well as supply service parts as long as parts are available.

As you know we have several replacement options available for the EX-9000. We have EX-3500 and the BX-1500 / 1600 available. We also have limited inventory of the BX-6000 series, please check availability before you order.

Inventory on the EX-9000 is depleted however we do still have inventory on the EX-9500. Supplies are limited.

We apologize for any inconvenience this may cause and thank you for your continued support.

Please contact us with any questions.

Best regards,
