

PIX-95 Connectivity

604 [Frank Mateo](#) Mon, Jan 31, 2022 [Time Clocks](#), [Time Software/Systems](#) 0 1611

I have a client using a PIX-95 time clock who wants to know if it's possible to connect it to a PC to receive alerts when an employee clocks in or clocks out. I couldn't find a manual online.

Thanks,

Mason

REPLY:

This clock is standalone with no pc connection whatsoever. We have other models for pc that shows in/out punches - however, no alerts also.

The models are AFR and MTX30.
