I am interested in your product and I wanted to know if you can answer the following questions?

1. Is this a one-time purchase or an on-going monthly purchase for the software?
2. What is the warranty for this device?
3. How close does the RFID card need to be scanned?

Have a nice day,

Bret C.

REPLY:

We have 2 systems for cloud there will be monthly, for desktop - it's a 1 time purchase. 1 year warranty for hardware. Direct or 1in. away will allow the prox to read.
