## Introduction

Issue:

Fix:

1. On your PC running Windows 11 in S mode, open **Settings** ⚙️ > **System** 🖥️ > **Activation**.
2. In the **Switch to Windows 11 Pro** section, select **Go to the Store**. (If you also see an "Upgrade your edition of Windows" section, be careful not to click the "Go to the Store" link that appears there.)
3. On the **Switch out of S mode** (or similar) page that appears in the Microsoft Store, select the **Get** button. After you see a confirmation message on the page, you'll be able to install apps from outside of the Microsoft Store.

Warning- Switching out of S mode can be permanent.
