

Subject: How to resolve duplicate node tst tree error

1. Close time guardian
2. Download this <ftp://ftp.amano.com/Time%20Guardian/DuplicateID-ImportDump.exe>
3. Save it to c:\program files\time guardian or where time guardian is installed in your pc
4. Run the DuplicateID-ImportDump.exe
5. Place a check mark on Check all tables
6. Change the year to 1788 on the start date only
7. Click delete
8. Close when the status bar has reached the right end
9. Start time guardian
