

## System Requirements

### Typical Network Installation

#### Workstations

##### Installed Components:

TruTime Client

##### Minimum Requirements:

Processor: 486

Memory: 16mb

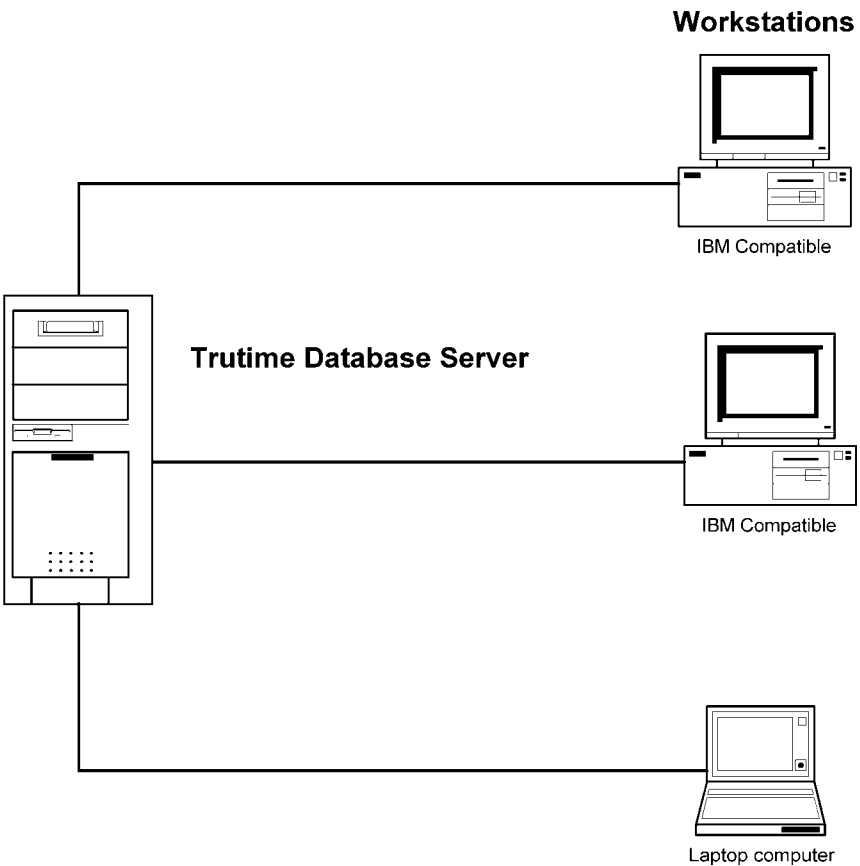

Hard disk space: 10mb

##### Recommended:

Processor: Pentium I

Memory: 64mb

Hard disk space : 10mb

#### TruTime Database Server

##### Installed Components:

TruTime Server

##### Minimum Requirements:

Processor: Pentium I

Memory: 64mb

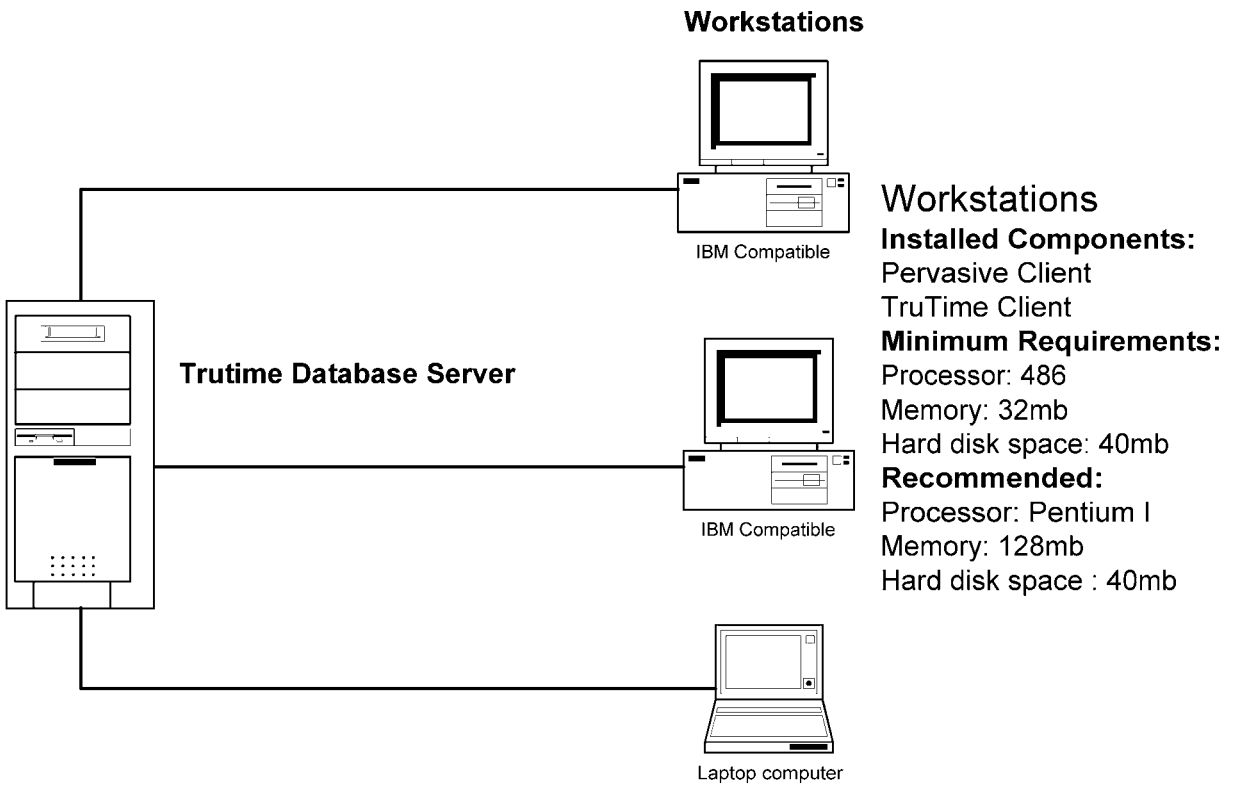

Hard disk space: 40mb + 200mb  
for database.

##### Recommended:

Processor: Pentium II

Memory: 128mb

Hard disk space : 40mb + 300mb  
for database.

## TruTime Database Server

### Installed Components

Pervasive Database engine

TruTime Server

### Minimum Requirements:

Processor: Pentium I

Memory: 64mb

Hard disk space: 120mb + 200mb  
for database.

### Recommended:

Processor: Pentium II

Memory: 256mb

Hard disk space : 120mb + 300mb  
for database.

## Trutime Database Server

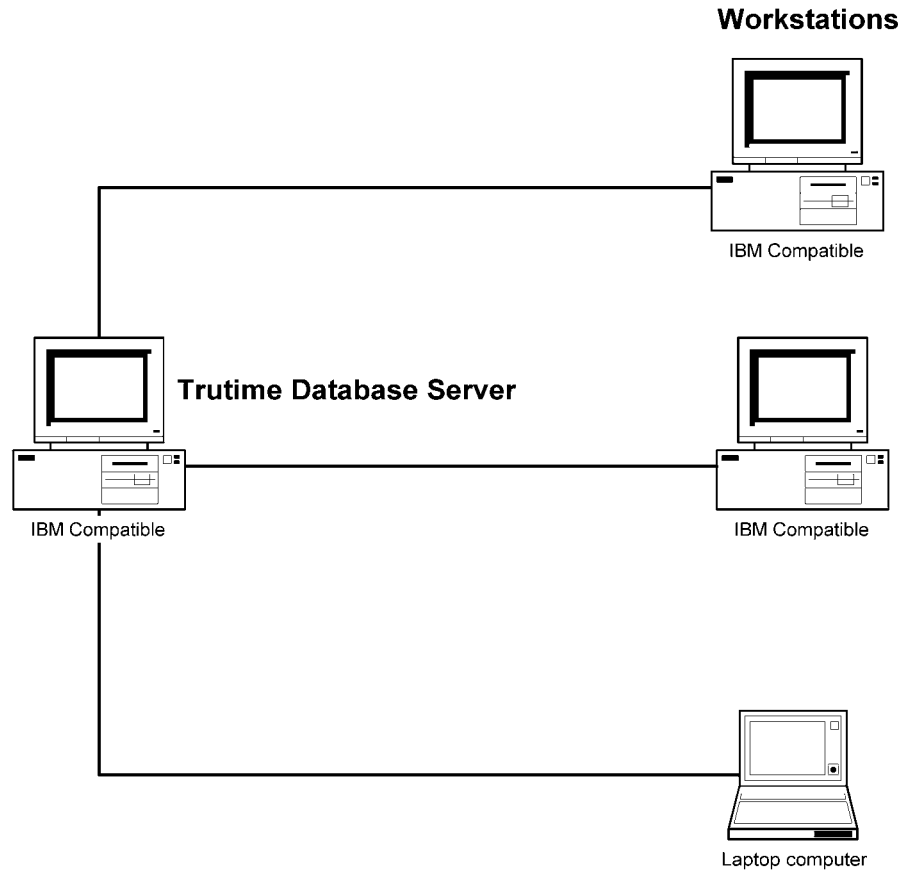

### Minimum Requirements:

Processor: Pentium I  
Memory: 64mb  
Hard disk space: 40mb + 200mb  
for database.

### Recommended:

Processor: Pentium II  
Memory: 128mb  
Hard disk space : 40mb + 300mb  
for database.

Note: This PC C:\apps directory is  
shared for the other PC's in the  
workgroup.

## Workstations

### Installed Components:

TruTime Client

### Minimum Requirements:

Processor: 486  
Memory: 16mb  
Hard disk space: 10mb

### Recommended:

Processor: Pentium I  
Memory: 64mb  
Hard disk space : 10mb

## Webserver

### Installed Components:

TruTime NetPunch

### Minimum Requirements:

Processor: Pentium II

Memory: 128mb

Hard disk space: 130mb

### Recommended:

Processor: Pentium II

Memory: 256mb

Hard disk space : 180mb

## Truetime Database Server

### Installed Components:

Pervasive Database engine

TruTime Server installed

TruTime Client installed

### Minimum Requirements:

OS: Windows NT, 2000, or XP

Processor: Pentium I

Memory: 64mb

Hard disk space: 120mb + 200mb for database.

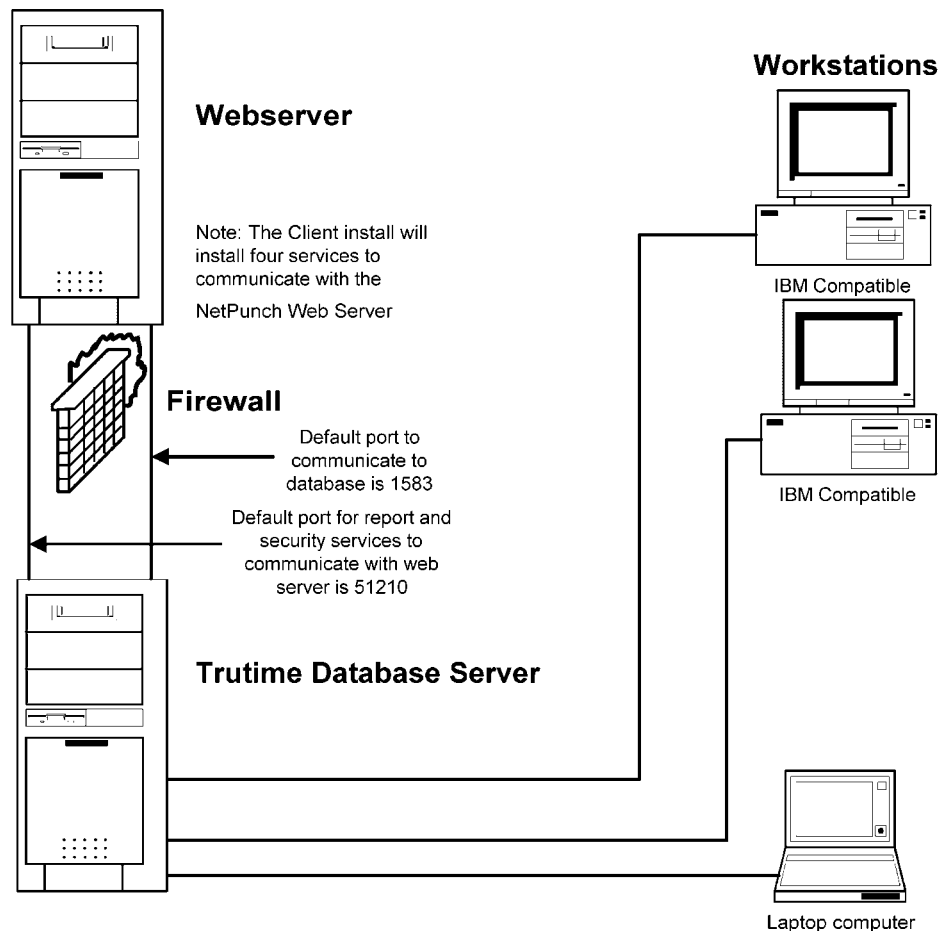

### Recommended:

OS: Windows 2000

Processor: Pentium II

Memory: 256mb

Hard disk space : 120mb + 300mb for database.

## Workstations

### Installed Components:

Pervasive Client

TruTime Client

### Minimum Requirements:

Processor: 486

Memory: 32mb

Hard disk space: 40mb

### Recommended:

Processor: Pentium I

Memory: 128mb

Hard disk space : 40mb

## Webserver

### Installed Components:

TruTime NetPunch

### Minimum Requirements:

OS: Windows NT, 2000, or XP

Processor: Pentium II

Memory: 128mb

Hard disk space: 130mb

### Recommended:

OS: Windows 2000

Processor: Pentium II

Memory: 256mb

Hard disk space : 180mb

## TruTime Database Server

### Installed Components:

Pervasive Database engine

TruTime Server

TruTime Client

### Minimum Requirements:

OS: Windows NT, 2000, or XP

Processor: Pentium I

Memory: 64mb

Hard disk space: 120mb +

200mb for database.

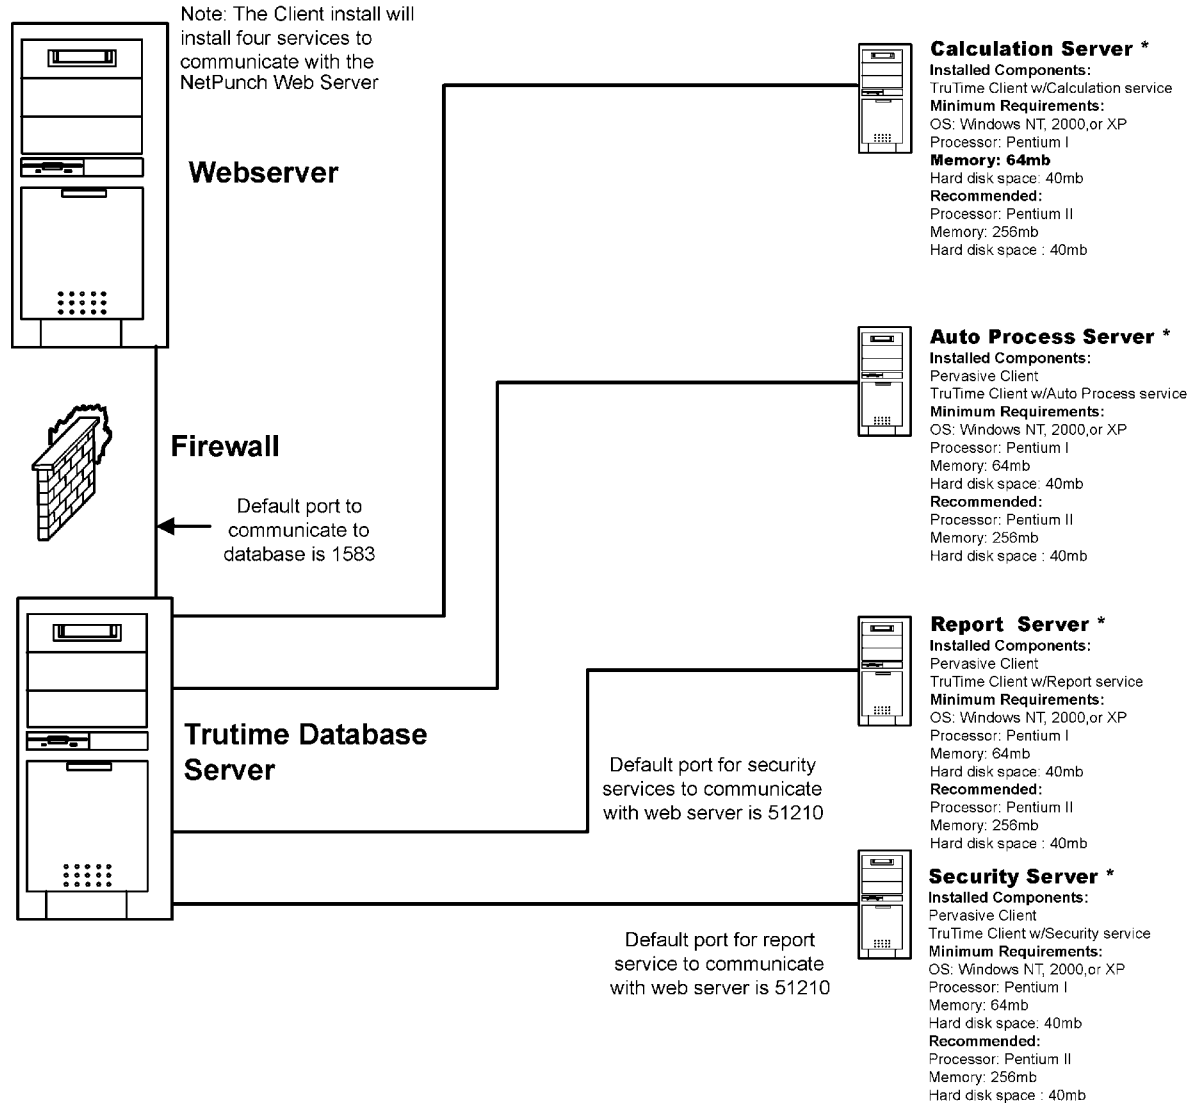

### Recommended:

Processor: Pentium II

Memory: 256mb

Hard disk space : 120mb +

300mb for database.
