CONTENTS AND WALL MOUNTING

1. Set the AFR-100 terminal face up on a flat surface to avoid scratches on display
2. Using the mounting guide as a template, mark the location of the upper and lower mounting holes on the wall. It is recommended to mount the terminal 49.2" from the floor to the baseline on the template. *Adjust for staff height as necessary.

Note: Pay attention to the orientation. The back plate should only be mounted one-way as it is keyed to fit into the back of the face scan reader.

3. Install anchors at the marks and attach the mounting bracket to the wall.
4. Feed power and communication wires through the knockout in the bottom of the mounting bracket.
5. Install the four screws attaching the metal back plate to the mounting bracket. Make sure the two metal tabs are on top.
6. Plug in power connector and Ethernet cable (if using Ethernet) into the terminal. Also connect signal wiring if applicable.
7. Slide the terminal onto the two tabs located at the top of the back plate.
8. Secure the reader to the back plate by inserting and tightening the screw located at the bottom of the unit.

Your terminal is now mounted to the wall and ready to connect the power supply to the outlet.

AFR-100 WIFI CONNECTION

For WiFi connection plug-in the AC adapter to the AFR-100 and AC outlet (the terminal will start up).

After the terminal powers up press the 6 dots, then COMM, Wireless Network, and then choose your WiFi network.

Next enter your WiFi password. (USB drive password download is optional)

Click the back arrow to escape to the main display screen.

AFR-100 DISPLAY

AFR-100 ETHERNET PC CONNECTION

For Ethernet PC connection, plug in one end of the 6ft cat 5 cable to the network connection and the other end into the Ethernet port on the bottom panel of the AFR-100.

Next, plug in the AC adapter to the AFR-100 and AC outlet (the terminal will start up).

ETHERNET
PORT

AFR-100 BACK PANEL

Note: After powering up the terminal press the 6 dots, COMM, Cloud, and then enter the IP address of your PC.

TIME GUARDIAN SOFTWARE INSTALL OPTIONS

Insert the Time Guardian® (TG) USB into your PC and follow the on screen prompts.

Select Language and install **TG** using one of these 3 options:

Standalone – Amano recommends using this default selection to install **TG** and the database on the same PC.

The following selections are recommended for network setup.

Server – install TG database on a server.

Client – install TG on a PC with connection to the database on a server.

Firebird – Use this default to install the Firebird database with TG.

Microsoft® SQL – Only select this option if you have Microsoft SQL Server.

Notes:

During software installation, you can choose from 2 database options, but Amano recommends using the **Firebird** default.

The installation should start automatically, but if installation stalls, browse on USB to **TG-Series.exe**

See USB for detailed QuickBooks install instructions.

TG SOFTWARE INSTALLATION

Click Next to finish the InstallShield Wizard at the end of the InstallShield. When the Amano Software Activation screen appears enter the 9-digit serial number supplied with TG (located on the USB and clock) and click the Activate button. Upon successful activation the registration screen will appear to perform on-line registration. Click SAVE to complete and the **TG** program will launch and display the initial Setup Wizard. Proceed thru the Setup Wizard to configure TG for the site.

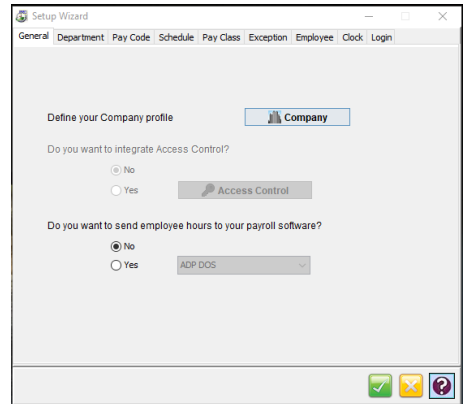

Note: If the Activation fails and/or an error message appears possibly; the serial number is wrong; there is no Internet connection or the same serial number was previously installed. For Activation Help and to manually activate **TG**, contact support @ 1-800-896-7035. If for any reason you can't activate you have 14 days to complete Activation.

For optional **TG** module(s) Activation see the User Guide for additional instructions or contact support @ 1-800-896-7035.

WIZARD – GENERAL SETUP

Once the Setup Wizard launches make sure the **General** tab is highlighted.

- Click on the Company button and enter the general company info.
- Next click on the Global Settings tab, across the top of the Company screen and select your desired settings for the hours and time format.
- From the E-mail Settings tab, across the top of the Company screen, enter the Host Name/IP Address and authentication information, if required.
- Once all necessary information has been added to the three tabs (General, Global Settings, E-mail Settings) press the Apply  button, or choose the  button to close out of the box without saving
- This will close the pop-up box and bring you back to the Setup Wizard Main Screen.

WIZARD – DEPARTMENT SETUP

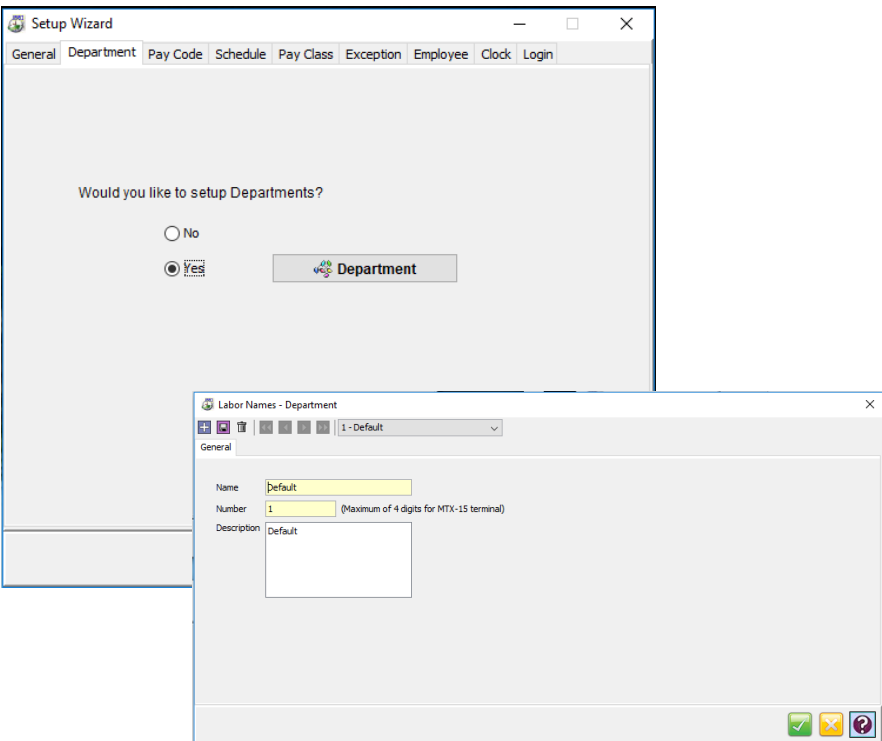

Highlight the **Department** tab across the top the Setup Wizard Screen.

Select “Yes” and then click on the  **Department** button.

This will bring up the Labor Names - Department screen. Here you will define the Name, Number, and Description of the department. *Departments can be used to filter employee lists and reports.*

Once all information has been entered click on the Apply  button to save the entry or choose the  button to close out of the box without saving. *(All fields highlighted in yellow MUST be completed.)*

The Labor Names – Department box will close and bring you back to the Wizard Setup screen..

The image shows two overlapping windows from a software application. The background window is titled "Setup Wizard" and has tabs for "General", "Department", "Pay Code", "Schedule", "Pay Class", "Exception", "Employee", "Clock", and "Login". The "Department" tab is selected. It contains the text "Would you like to setup Departments?" with two radio buttons: "No" (unselected) and "Yes" (selected). Below the "Yes" button is a button labeled "Department" with a small icon. The foreground window is titled "Labor Names - Department" and has a dropdown menu showing "1 - Default". It has a "General" tab. The "Name" field is "Default", the "Number" field is "1" (with a note "(Maximum of 4 digits for MTX-15 terminal)"), and the "Description" field is "Default". At the bottom right of this window are three buttons: a green checkmark (Apply), a yellow close button (Close), and a blue question mark (Help).

Note: Department Setup is optional. By default, all employee are assigned to the 1st department.

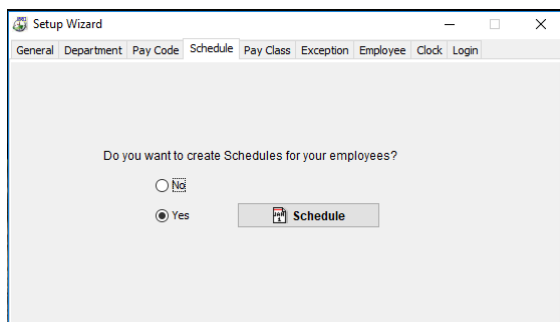

WIZARD – SCHEDULE SETUP

Highlight the **Schedule** tab at the top of the Setup Wizard.

To create a Schedule Click on the  **Schedule** button.

Enter a name and then click on the **Add** button to select the Days of the Week. Next, enter the Start/End times.

- All salary employees require a schedule for hour's calculation.
- No schedule overlaps are allowed and only 1 schedule per day.

Note: The default for **TG** is set to "No" to schedule employees with no schedule assignment.

The optional Advanced Schedule Module provides enhanced scheduling such as auto scheduling, schedule rotation, and advanced schedule for vacation and other time off, edit schedules on the fly and create custom weekly/monthly/seasonal schedules.

WIZARD – PAY CLASS SETUP

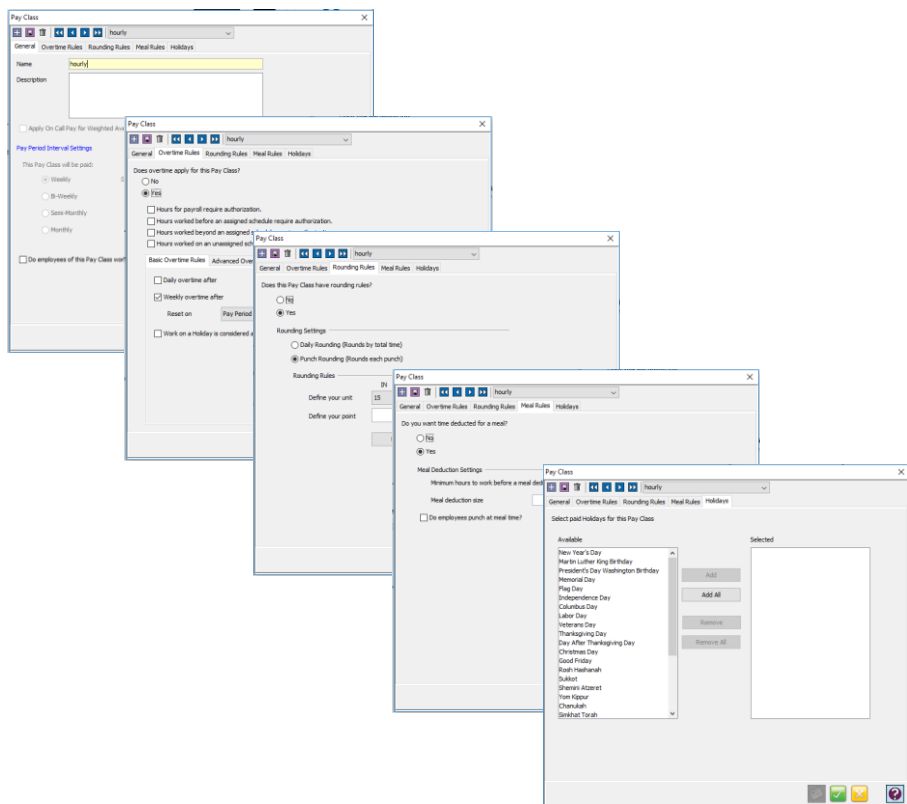

Highlight the **Pay Class** tab at the top of the Setup Wizard.

If you would like to set up Pay Class Rules click on

Here you will define the:

- General Info – Name required
- Overtime Rules
- Rounding Rules
- Meal Rules
- Holidays

Note: At least 1 Pay Class must be created.

The optional Advanced Pay Class Module provides enhanced day change rules, custom pay period and holiday group setup.

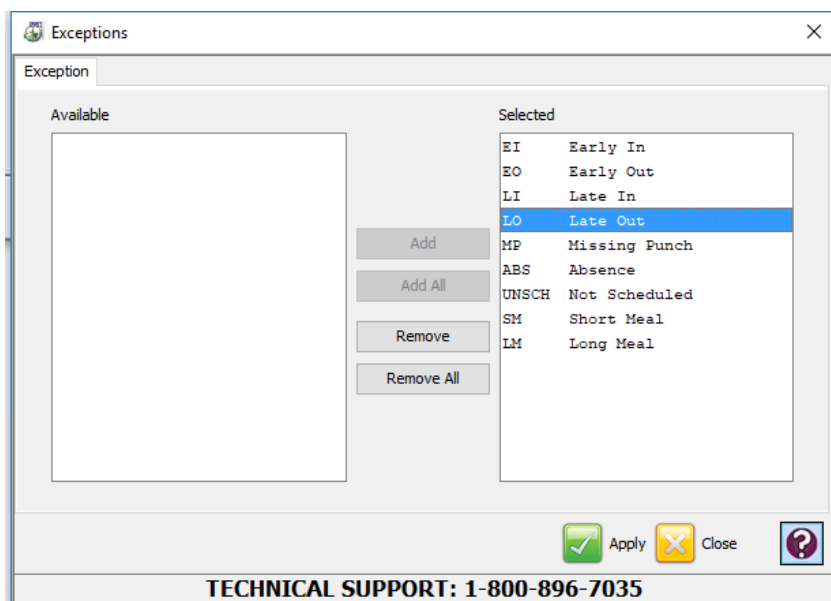

WIZARD – EXCEPTIONS SETUP

Highlight the **Exceptions** tab at the top of the Setup Wizard.

If you would like to set up Exception Rules click on 

Exceptions are used to track and correct employee attendance.

TG has 9 standard exceptions such as LI – Late In and EO – Early Out, which are generated by using meal rules, schedule, and punches.

If you do not want to include a specific Exception, click on the Exception Name (LO – Late Out, for example) and then click the **Remove** button. This Exception will now be shown on the left side of the screen as “Available” but not selected.

Select **Remove All** if you do not want to include any Exceptions.

To add an “Available” Exception to the Selected column highlight the Exception Name and then click **Add**.

Note: The default setting has all Exceptions selected.

WIZARD – EMPLOYEE SETUP

Highlight the **Employee** tab at the top of the Setup Wizard.

To create a new employee select “Yes”.

Then click

Employee

A screenshot of the 'Employees' window in a software application. The window has a title bar 'Employees' and a close button. Below the title bar is a toolbar with icons for adding, deleting, and navigating. A dropdown menu shows '1 test biometric, employee1'. Below this is a tabbed interface with tabs: General, Personal, Contact, Assignments, Schedule, Labor Level, Certification, Wages, Benefit, Web Access, and Access. The 'General' tab is active. It contains several input fields: Number (1), Badge (1), Payroll (1), Last Name (test biometric), Middle Name (empty), First Name (employee1), Hire Date (1/1/2011), Inactive checkbox, Inactive Date, Supervisor checkbox, Authority Level (None), Reject Threshold (Default), and a large text area for Comment. On the right, there are radio buttons for Type (Hourly selected, Salary) and Pay Type (Hours selected, Schedule), and a text field for Hours (00:00). At the bottom, there are icons for help, apply, close, and a question mark. A footer bar contains the text 'TECHNICAL SUPPORT: 1-800-896-7035'.

From here you will input the new employee information on the corresponding tabs which includes:

- General
- Assignments
- Schedule
- Labor Level
- Wages

Note: Employee badge must be identical to badge number in clock.

WIZARD – CLOCK SETUP

Highlight the **Clock** tab at the top of the Setup Wizard.

Clock Setup provides the ability to configure the AFR-100 terminal

The screenshot shows the 'Setup Wizard' window with the 'Clock' tab selected. The window contains three configuration questions, each with radio button options and a corresponding action button.

Do you have time attendance terminals (MTX-15, Hand Punch, FPT-80, etc.)?

☐ No
☒ Yes

Do you want to configure Terminal Validation?
Note: Send down Employee & Department info to terminal(s)

☐ No ☒ Yes Terminal Validation

Do you want to configure Bell Schedule(s)?
Note: Send down schedule to ring bell

☒ No ☐ Yes Bell Schedule

Do you want to configure your terminal(s)?
Note: Configure location and discover terminals

☐ No ☒ Yes Location / Terminal

At the bottom right of the window are three icons: a green checkmark, a yellow 'X', and a purple question mark.

A default Location **must** be created for the AFR-100. To do so, select Yes and click on Location / Terminal
